

# THE ULTIMATE LINUX MAGAZINE ARCHIVE

LINUX  
MAGAZINE

As a special bonus for our readers, this month's DVD includes a handy, searchable archive containing all Linux Magazine articles from the first issue through December, 2004. The archive consists of over 4,000 pages of articles, columns, reviews and commentary in high-resolution PDF format that have never been anthologized in any archive.

### Cover Story

Each issue of Linux Magazine features three or more articles on a special theme. Our cover stories bring you expert advice on pertinent topics such as security, networking, printing, scripting, and hardware.

### Reviews

Browse the DVD for reviews of books and tools including reviews of the best Linux books from major publishers. The DVD also has reviews of products like OpenExchange, VMware, Suse 9.1, Sun Java Desktop, and more specialized tools for both experts and beginners.

### Know How

The advanced technical articles in our Know-How section teach new technologies and describe new tools for age-old problems. You'll find articles on BitTorrent, blogging tools, power management, VPNs, Voice over IP, firewalls, and filesystem tuning. You'll learn about the network time protocol, and how to rescue data you thought you'd lost.

### System Administration

In our Sys Admin section, you'll find tips, insights, and special features for working admins, including our Admin Workshop column, a tutorial on the tools of the experts.

### Scripting

Mike Schilli's Perl-Snapshot column gives you advanced Perl programming techniques, showing you how to access OpenOffice from Perl, and how to monitor an eBay auction. You'll also find other programming articles from experts in Java, Perl, Bash, and PHP.

### Desktop Tools

We bring you the best of the Linux desktop. Our Linux User section focuses on strategies and solutions

from the viewpoint of the user. Regular columns cover Linux topics from KDE to the command line. You'll learn about great free applications for practical problems. Also articles on window managers, retro-gaming and groupware apps such as Kontakt.

### Community

Our community section is your window to the global community of Linux users and developers. Monthly columns such as Brave Gnu World and Projects on the Move raise awareness of Open Source projects. You'll also learn about important conferences, summits, and seminars in the world of Open Source, including events such as KDE akademy, Oscon, and Linux-World UK.
