Since the merger of Mandrake and Conectiva, the engineers of the new company known as Mandriva have forged a new distribution with the best of these two highly regarded Linux lines. Mandriva Linux comes in several flavors and is available at a wide range of prices and service agreements. The Mandriva One distribution included on this DVD is a 100% open source version of Mandriva, with no closed source proprietary drivers or applications. We are proud to bring you Mandriva One 2006 as this month's Linux Magazine DVD.

Now Live

You can install Mandriva One directly from this DVD, but you can also boot Mandriva from the DVD drive without disturbing the contents of your hard disk. The Mandriva One DVD serves as both an installation disk and a live DVD.

Installation

Mandriva offers easy installation for everyday users. The Mandriva installer is still one of the best in the industry. The

installer supports over 50 languages and automatically configures a wide range of hardware. The installation includes several advanced configuration options and a rescue mode for saving the system in case of failure.

Mandriva Control Center

Mandriva Linux 2006 includes the Mandriva Linux Control Center - one of the best and most powerful configuration tools in all of Linux. The Mandriva Linux Control Center is a central spot for configuring your Mandriva Linux system. From a single user interface, you can manage software, configure hardware devices,

set up network connections, configure services, add or remove users, manage mount points, configure personal firewall protection, and set system boot options.

Try it Now

The Linux Magazine Mandriva One DVD boots easily from your DVD drive. The convenient new live DVD option lets you test drive Mandriva on your own hardware without changing your current configuration. Now is your chance to explore this highly regarded Linux distribution with a long history and a bright new future. Try the Linux Magazine Mandriva One DVD today!

HELP & SUPPORT

See the Mandriva forums: <http://club.mandriva.com/xwiki/bin/Forum/> and the official Mandriva documentation <http://club.mandriva.com/xwiki/bin/KB/OfficialDocumentation/>. Mandriva One is a 100% open source product that does not include proprietary drivers.
